

Happy New Year!

Don't let funding challenges or travel restrictions keep you from getting the training and information you need to be effective. NAGC's WOW Series brings high-quality professional development to your home, office, or teachers' lounge. You'll experience the live WOW sessions via the Internet with the ability to listen, view slides, access handouts, and pose questions to presenters, as well as interact with other participants virtually.

Individual session topics are designed for one or more of the audiences in the GT community: classroom teachers, counselors, graduate students, parents, g/t coordinators, or administrators.

Plus, when you register, you can access archives in the NAGC Live Learning Center.
