

## Statement of Candidacy

**Candidate: Kelly Stiles**

**Network: Global Awareness**

My name is Kelly Stiles, and I am a Gifted and Talented educator with experience in supporting traditional and charter schools. Since earning my Masters in Gifted and Talented Education from the University of Northern Colorado, I have dedicated my professional and personal time to serving gifted children of all ages as they learn about themselves and seek to impact their world. As an active member of the Global Awareness Network, I see our Network role as deeply interconnected with all other networks of NAGC. I will seek to further the Network's commitment to cultural and global awareness, as well as to develop and strengthen collaborative partnerships with other facets of our gifted educator community. Our collective experience and awareness enables us to serve gifted children, and in turn, to help them serve their world. I appreciate your vote.
