Shannon Fuller, Special Schools and Programs Chair-Elect
Teacher, Program for Exceptionally Gifted Children, North Kansas City (MO) Schools

Network Vision Statement
To borrow from the African proverb, it takes a village to support a gifted child. My vision is to expand the NAGC’s Special Schools and Programs Network and to create a fluid coalition between these “villages,” increasing the potential for educators and directors of diverse programs to connect with each other. By collaborating with a community of leaders and connecting special schools and programs for gifted children, we can improve our network for communicating effective practices and findings to help all gifted children reach their potential. I believe as Chair-Elect, I can help build these connections and support gifted learners.
